SUBJECT INDEX

ISSUES 85-91

	Issue	Page
Advisory Work:		
A Study of the Factors Influencing Advice Penetration in a Problem Farming Area, the East Lancashire Pennines	89	4
Evaluation of Advisory Work in Farm Management	85	11
Extension Plant Pathology in Ontario	89	14
Learning to be a Mechanization Adviser	87	99
On getting Farm Management Advice across to the Farmer	85	6
The Farmer, the Adviser and the Bank	90	56
Why be an Adviser?	85	1
Animal Nutrition:		
Rearing Calves on Milk Substitute and Grass	86	66
Spring Grazing Effects on Milk Yields of Dairy cows	91	100
Variations in the Composition of Dried Grass Samples Produced in Yorkshire and Lancashire	89	18
Biological Control:		
Problems associated with Biological Control of Glasshouse Pests	91	113
Calf Housing:		
Cubicle Housing for Calves	86	78
Cereals:		
Winter Barley in Britain	90	74
Crop Husbandry:		
An estimate of the Extent of Slug Damage to Wheat and Potatoes in England and Wales	85	31
Control of Common Scab by the Use of Irrigation	91	128
Manuring the Beet Seed Crop in England	87	112
Potato Production: Progress and Problems	91	121
Processes and Control of Wind Erosion	88	139
Production and Multiplication of Seed of Sugar Beet Varieties	86	55
Seed Production by Couch Grass (*Agropyron repens*)	89	42
Environment:		
Cubicle Housing for Calves	86	78
Farm Management:		
Economics of Different Methods of Feeding Growing Pigs	85	17
Economics of Home Milling and Mixing	85	26
Farm Waste Disposal:	86	59
Field Experimentation:		
Experimentation in the National Agricultural Advisory Service: Objectives and Organization	90	89
Grassland Husbandry:		
High Nitrogen Use on Grass in the Netherlands	88	156
The Drying of Grass Seed	88	167
Herbicides:		
Herbicides—Their Fate and Persistence in Soils	87	119

	Issue	Page
Horticultural Management:		
A New Approach to Account Analysis in Horticulture	88	178
Horticulture:		
Cultural and Environmental Factors Affecting Control of the Cropping of the Cultivated Mushroom	90	61
Narcissus Eelworm	90	83
The Use of Plastic Materials for Crop Production in France and Northern Italy	88	151
Insecticides:		
Problem of Insecticidal Residues in Agricultural Soils	86	47
Land Use:		
Long-term Objectives for the More Remote Rural Areas	91	93
Marketing:		
Probability Models in Agricultural Marketing	87	104
Mechanization:		
A Provocative look at Agricultural Transport	89	1
Selective Thinning of Row Crops	89	23
Pigs:		
Pig Breeding Research and Imported Breeds	90	47
Plant Growth Regulators:		
Plant Growth Regulators and Crop Production	89	33
Plant Pathology:		
Interactions between Diseases of Sugar Beet Leaves	87	132
Plant Physiology:		
Plant Physiology and Agricultural Science	85	37
Physiology of Grain Yield	85	42
Poultry:		
Calcium Requirements for Good Egg Shell Quality	86	84
Sheep:		
Developments with Intensive Lowland Sheep on Experimental Husbandry Farms	87	93
